RUSSIAN METHODS.

The opponents of Superintendent Bogart have carried their warfare into the courts, and have sworn out a warrant through James Smith, a gentleman of leisure who has taken some interest in the matter, who swears to it "on information received." While we have no doubt Mr. Bogart has no objection to a thorough ventilation of the case in court, and in fact courts a thorough investigation, the manner in which the matter has been consummated is reprehensible. \$100,000 of bail could have been secured, but as the offense is one that must be taken before court, the officer making the arrest refused to permit the accused to go to Potomac, but hurried him off toward Pittsburgh at such an hour that would preclude obtaining bail today, which shows plainly the desire to injure the man whom the School Board, after thoroughly investigating the matter, have acquitted him of the charge. The action of this officer of the law would do credit to Russian methods, and his brutal conduct of the case has justly aroused more feeling than anything that has occurred in town for a long time past. Hysteria and base partisanship could go no further and it is unfortunate that a man of no standing or responsibility is the only one whom the accused can reach when the case is disposed of as we believe it will be.

Tim Federal employes in Shenandoah county are still mute and furious. There is indeed a sad, strange case.

The pillage in New York may result in much good to the Republican cause in this county, and avoid any further "baby politics" on the part of those who indulge in such tactics.

In view of recent events transpiring in political circles within the boundaries of Shenandoah, a pertinent question just now is, "Has the stock in Grande silver mines declined?"

The Republican party stands today where it always stood upon the financial question. It has not changed. Those who style themselves "Bryan Republicans" are necessarily without the party's broadcasts.

The market reports show that the price of nickel has fallen from \$4.00 a pound to 27 cents. Yet we have not heard of a single Shenandoah county free silverite making an exhaustive search for the missing "legislative nickel."

A NEWS despatch says a man was paralyzed while discussing the silver question at Springfield, Ohio. This is only the beginning of the end. In less than two months there will be thousands of these spell-bounders as mute as cats.

It is given out that ex-Governor Pattison is to be the Democratic-Populist candidate for United States Senator. A man who goes to Chicago a strong gold advocate and comes back a free silver supporter deserves the empty honor.

The arguments of the average free silver advocate simply shows that the facts of history and science with regard to money have never made the least impression on his mind. The majority of cases it is a question of self-interest.

Swallow says he will not resign, and Watson asserts that if he does not vacate Bryan's name will be taken off the Populist ticket. Without the latter's support it is doubtful whether Bryan can carry a single state in the Union. The situation, therefore, indicates four presidential tickets in the field.

CHAIRMAN GARMAN has issued a call reconvening the Democratic state convention at Harrisonburg next Thursday, to reconstruct the electoral ticket and adopt a platform in line with the action of Populist convention at Chicago. This has been found necessary because so many of the presidential electors on the Democratic ticket have resigned since the Chicago convention repudiated the cherished doctrines of the Democratic party. Whether Chairman Garmen and his free silver followers will be able on Thursday to have the convention endorse the Bryan platform is very doubtful. The sound money Democratic delegates will attend the convention and oppose any such movement, and as they are said to be in the majority there is likely to be some fun. Many of the conservative gold men are opposed to Garmen's program, because they do not like the idea of repudiating their views of four months ago at Allentown. They were honest in their expressions for the gold standard at that time, and do not like the idea of placing themselves in the position of assailing their former opinions. Chairman Garmen was just as enthusiastic

for gold at that time, but he is looking for political preferment and cares little for opinions publicly expressed. He has prepared a neat game for controlling Thursday's convention by omitting those delegates who are not tainted with the silver craze. The plan is to reorganize the convention by electing new officers and committees, the latter being in favor of the free and unlimited coinage of silver. The platform will be assigned to a new committee, and in this way Gorman expects to compel the convention to do the great contortion act in a manner to his own liking. At least one of the delegates from this county, John X. Dence, has bolted the ticket. It is to be seen whether the delegates from this district, M. J. Scanlan, James J. Quirk and P. J. Ferguson, will repudiate their former opinions for those of some unbecoming.

DANIEL DUFFY, ex-Clerk of the Courts, ex-Secretary of the Republican county committee and exponent of silver doctrine informs an inquiring reporter that he and his free silver followers will support the Republican county ticket with the single exception of Congress. And for this are we devoutly thankful.

ARCHBISHOP IRELAND, of St. Paul, has issued a letter announcing that hereafter in the Catholic parochial schools no tuition will be charged, such tuition being considered an obstacle to the growth of these schools. The expenses of maintaining them will be taken from the regular church receipts or in some other manner as the judgment of the pastors dictated.

The news of the death of Capt. Jack Crawford, the post scout, will be received by his numerous friends in this town with much sorrow. Having been a resident of Shenandoah and other parts of the county for a number of years, our people have looked upon him as one of themselves, among whom he was always held in high esteem. As a scout he had few equals.

Mr. BRYAN has declared that he is no Democrat, and in further proof of that assertion his reply to a question propounded as to the effect of the Indianapolis convention is pertinent. When asked if the nomination of a straight Democratic ticket would defeat him, he said: "I can't tell; but if it does, I will have the satisfaction of smashing the Democratic party." Now that the ticket has been nominated, we look for the smashing process to begin at both ends.

The North Carolina Republicans have been informed by the National Committee that relations with them will be suspended unless they adopt a sound money platform. The same stand should be taken in this county with those who refuse to recognize the party organization. Two wrongs never make a right. When the national honor and the party organization is assailed, there can be but one brand of Republicanism.

MAHANOY CITY MELANGE.

A Young Men's Christian Association Branch Being Organized.

MAHANOY CITY, Sept. 7.—S. P. Bars, state secretary of the Y. M. C. A., was here Saturday and consulted with committees appointed on organization. He was well pleased with the work already accomplished and outlined the future work. He has several parties under consideration to place here as secretary and manager of the local branch, which has rented the Hagenbach building and will occupy it some time this week.

George Mishart, bartender at the Kaiser House, broke his right arm below the elbow Saturday evening while wrestling with a former.

A joint debate on the silver question will take place in Armory hall next Wednesday evening between L. Y. Solenberger, Esq., and Daniel F. Guinan.

Watson F. Shepherd, Esq., made his speech at the Humane picnic on Saturday in spite of the storm. He took Congressman Brannin to task on his votes and speeches on financial measures and declared himself to be in line with the Chicago platform and its nominees. After the speech the picnic was adjourned to Armory hall.

The Washington Hook & Ladder Company's picnic at High Point park broke up on account of the storm.

The Jewish New Year.

The orthodox Hebrews all over the civilized world will begin the celebration of the 5,657th year since the creation of the world according to the Jewish calendar this evening. Upon every Jewish table will be placed the traditional dish of apples and new honey, indicating that the new year may be productive of fruit both bitter and sweet. The orthodox Hebrews believe that on the new year Jehovah sits on his throne and judges all men. Ten days are allowed as days of grace, and at the end of this period another great feast, Yom Kippur (Day of Atonement), is celebrated. The Jewish new year, known as Rosh Hashana, begins at sundown and lasts until the same hour to-morrow evening. It is a time when all differences, particularly those which have jarred the family circle, are forgotten or smoothed over for the time.

AN OHIO MYSTERY.

Bessie Little's Disappearance Followed by the Arrest of Her Lover.

DAYTON, O., Sept. 7.—On Aug. 27, Bessie Little, a boarder with Mrs. Fresse on South Jefferson street, this city, disappeared at 6 o'clock in the evening. She told Mrs. Fresse she had an engagement to ride with Albert J. Frantz, her alleged lover. On Thursday, Sept. 3, Bessie's dead body, floated almost beyond recognition, was found in Stillwater river, near the bridge over that river just north of Dayton. The coroner supposed it in a case of simple drowning—perhaps a suicide. Bessie's known delicate condition suggested suicide. Public sentiment demanded closer investigation. The body was examined and re-examined. A bullet that had entered the right ear was found lodged in the brain.

This was the first revelation of murder. Frantz was then arrested. Two boys while fishing found a pool of blood on Stillwater bridge and in the blood a tortoise shell side comb adorned with brilliants. This comb had been identified as belonging to Bessie Little. Albert J. Frantz was that night with his buggy. He says Bessie was not with him. Nobody has been found that saw Frantz and Bessie together on that Thursday night. On the following night Frantz's stable was burned, and his buggy, with its evidence, if it contained any, was destroyed. Frantz the day after the murder paid one week's board for Bessie in advance, and when told she was missing said she would return.

Candidate Bryan's Confidence.

MILWAUKEE, Sept. 7.—William Jennings Bryan spent a quiet Sunday in this city yesterday. In the morning, with Mr. and Mrs. E. C. Wall, he attended Immanuel Presbyterian church. There were no demonstrations of any kind further than a few introductions to some friends of Mr. and Mrs. Wall. In the afternoon the nominee accompanied his host on a drive throughout the city. There were but few visitors and the day passed quietly. Mr. Bryan left for Chicago this morning to speak at the labor picnic at Sharpshooters' Park. In an interview Mr. Bryan said: "I feel certain of carrying New York state, and I have never had a doubt about my election."

Disease in the Spanish Army.

WASHINGTON, Sept. 7.—Reports to the surgeon general indicate the continued prevalence of yellow fever and smallpox in Cuba, and that the fever is especially prevalent in the Spanish army. It is, however, impossible to obtain exact information from this source. Two hundred new cases of fever were reported in Havana for the week ending Aug. 27, with seventy-one deaths. Fifty of the deaths occurred in the military hospitals, where there were 122 new cases. There were 130 new cases of smallpox in the city for the same week.

Blue Mountain Peach Crop is Large.

WAYNESBORO, Pa., Sept. 7.—The farmers in the peach belt are in the midst of the harvest, and the crop has proven much larger than was at first expected. From ten to fifteen carloads are shipped from this region daily, and shipments will be continued at this rate during the month. The blue mountain peach, on account of its fine flavor, has acquired great popularity, and is in demand at good prices everywhere.

Child's New President.

VALPARAISO, Sept. 7.—Frederick Krauzer, the Conservative-Clerical candidate, was elected after a bitter struggle, to the Chilean presidency on Thursday last. The polling began in July. Perfect quiet now reigns, and the Republicans take their defeat with dignity. President Montt, who will retire when Krauzer is inaugurated, will do so with the full esteem of most of his countrymen after an untainted administration.

An Insurgent Plot Frustrated.

MADRID, Sept. 7.—Official dispatches have been received from Manila stating that a plot has been discovered for the surrender to the insurgents of the fortified town of Cavite in the Island of Luzon, in the Philippine islands, while the garrison was engaged in a sortie. Spanish troops have relieved the garrison of San Pedro in the province of Nueva Ecija, which was besieged by the insurgents.

To be Sent to a Sanitarium.

NEW YORK, Sept. 7.—Dr. Gallagher, the Irish refugee, yesterday met his brothers James and Michael for the first time, and recognized the latter in a lucid moment. In the afternoon Dr. Gallagher was taken on a drive to Grant's tomb, but he insisted that it was Washington's tomb and that Grant was still alive. Dr. Gallagher will be removed tomorrow to the private sanitarium at Amityville, L. I.

Killed by a Boiler Explosion.

FAIRMONT, Va., Sept. 7.—A terrible boiler explosion occurred near Willis mountain, Buckingham county. The boiler used for running a sawmill was being fired by the proprietor's son, Thomas R. Burke. He was blown many feet away from the place, where his body was afterwards picked up in an unrecognizable condition. The father was also badly hurt by flying pieces of iron.

How Much is There in It?

Before voting for \$6-cent dollars, would it not be well for the man who earns his bread by the sweat of his brow to require some sort of security from the paperate that when they come in to common use he will get at least two where he gave one now? The mine owner will get his profit first, and such a thing might happen as his refusing to divide with the rest of us, and then we would be in a "hoax." Better have the contract all drawn up and signed, then we will know just how much there is "in it" for all of us.—Bradford Republican.

Prosperity Coming.

There will be no prosperity until the interests of the people are again committed to the hands of the Republican party. And when that occurs, a permanent and glorious reign of prosperity will begin, and man will no more desire a change merely for the sake of a change.—Beaver Springs Herald.

TRAIN ROBBER SHOT DEAD.

Engineer "Got the Iron on Him" as His Back Was Turned.

SACRAMENTO, Cal., Sept. 7.—An attempt was made Saturday night to hold up the overland express train at Webster. The engine was in charge of Engineer F. Ingles and Fireman Patrick Burns. As the train approached Webster, six miles west of here, a man crawled over the tender and covering the engineer and fireman with a pistol compelled them to stop the train. This man guessed the engineer and fireman, who had been in waiting, started back to rob the train. Engineer Ingles seeing his captor off guard, shot him dead and ran the train into Sacramento. The other robber escaped.

The body of the train robber who was shot was found lying yesterday near the track. In his hand was grasped a loaded pistol. The man's name is thought to be F. J. Morgan, and he probably came from San Francisco. Engineer Ingles, in speaking of his adventure, said: "The conductor and brakeman came out on the platform of one of the cars to see why the train had stopped. One of the robbers shot at them twice, and with a string of oaths ordered them back into the train. At the sound of the shooting the robber on the engine stepped to the side and looked back. That was my opportunity, and I lost no time in taking advantage of it. I reached down into my locker, got my revolver and shot him in the back. I shot again, and he fell forward and rolled wide open. Then I pulled the throttle down open."

A MINNESOTA LYNCHING.

Two Men Taken from Jail by a Mob and Hanged.

GLENCOE, Minn., Sept. 7.—The trial of the first of the two men charged with the murder of Sheriff Joseph Rogers resulted on Saturday in a verdict of murder in the second degree, which did not please some of the people of this county, and a double lynching followed early yesterday morning. The two men lynched were Herman M. McGrover and H. A. Chignawas.

On June 23 they had assaulted a farmer, and Sheriff Rogers and deputies went after them with a warrant the following day. They resisted arrest, and during the altercation the sheriff was shot and killed, although they made no offer to harm the deputies. The men were strangers in the county, and the sheriff was popular. They were captured without difficulty. Lynching was threatened, and on June 25 Governor Clough sent Company D, of St. Paul, here to protect the prisoners. Escorted by the militia, they were taken to St. Paul and placed in the Ramsey county jail, when they were brought here for trial.

Between 12 and 1 o'clock yesterday morning a mob of masked men appeared quietly at the jail door and rapped for admission. Jailor Edward Waddell opened the door to see who was there, and a demand was at once made for the keys to the jail. On his refusal he was tied in his chair, and the men proceeded to batter down the doors with a sledge hammer. After breaking the locks of the cells they made the prisoners drunk. In spite of their piteous requests to be allowed to speak the two men were gagged and hurried away.

The mob took them to the bridge over Buffalo creek, on the road leading to the scene of the murder, and placing them in the same relative positions as when they committed the murder, they swung them over the edge of the bridge. The drop of fifteen feet broke both their necks.

A Mystery of the Sea.

MADRID, Sept. 7.—An explosion heard off the coast near the town of Muros, in the province of Coruna, during the night is the cause of much excitement and speculation among the inhabitants. It seems evident that a disaster has occurred, as much wreckage is strewn along the coast. It is supposed that two vessels collided during the night and foundered. Nothing has been discovered to show the identity of the vessels, nor is it known how great a loss of life accompanied the catastrophe.

ROYALTY AT BRESLAU.

A Complete Agreement on All Questions Between Russia and Germany.

BRESLAU, Sept. 7.—The festivities incident to the visit of the czar and empress were somewhat marred yesterday by bad weather, and the great field service for the camp which was projected was omitted owing to the heavy rain. Emperor William paid a visit to the czar at 11:30 o'clock. Empress Augusta arrived at the Landeshaus later, and twenty-four guests, including all the royal personages in the city, took lunch there. The czar gave an audience in the afternoon to the German chancellor, Prince Von Hohenlohe, which lasted for over an hour. A grand state banquet with 170 covers was given at the castle at 6 o'clock in the evening, all the leading members of the two imperial suites being present.

The czar has decorated Prince Von Hohenlohe, the German chancellor, with the Order of St. Andrew, and Freiherr Marschall Von Bielestein, the German minister of foreign affairs, and Prince Rodolff, the German ambassador to Russia, both with the Order of Alexander Nevsky, set in brilliants. Emperor William conferred the order of the Red Eagle upon M. Shiskine, Russian acting minister of foreign affairs, and the Grand Cross of the Red Eagle upon Count Ostrom-Sacken, Russian ambassador to Germany. It is understood here that the conference between the Russian and German statesmen in the respective suites of the Czar Nicholas and the Emperor William have resulted in confirming the complete agreement on all political questions existing between the two powers.

A gala performance was given at the theater last night, which was decorated for the occasion with garlands entwined with asters. A brilliant audience was present, and the entrance into the theater of their majesties of Russia and Germany was greeted with a triple flourish of trumpets and the playing of the Russian anthem.

The czar's infant daughter, Grand Duchess Olga, has been sent back to Kiel.

The grasshopper was of the large locust variety, and is noted for the great force of its hind legs.

SCHANON, Pa., Sept. 7.—John M. Thomas, of Wayne avenue, employed as a miner in Storr's shaft, touched his lighted lamp to a squib, and was running to a safe place when his head came in contact with a piece of projecting rock, knocking him senseless only a few feet away from the squib. The explosion took place and Mr. Thomas was completely covered by coal and rock. He was removed to his home in the ambulance. His condition is critical.
